sought by the applicant and compare it to the current variance for a 6 ft. side yard setback and the Zoning decide if granting a variance for 6 feet is substantial	ZLaw states a minimum 10 ft. side yard setback, the ZBA will or not.

#### 617.20 Appendix B Short Environmental Assessment Form

#### **Instructions for Completing**

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 - Project and Sponsor Information				
Name of Action or Project:				
Project Location (describe, and attach a location map):			. =

1	O. Has the site of the proposed action or an adjoining property been the subject of remediation (on completed) for hazardous waste? Yes, describe:	going or	NO	YES
A	AFFIRM THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE NOWLEDGE  pplicant/sponsor name: Date; gnature:			
qu otl	art 2 - Impact Assessment. The Lead Agency is responsible for the completion of Part 2. Ansestions in Part 2 using the information contained in Part 1 and other materials submitted by the properties available to the reviewer. When answering the questions the reviewer should be guided by sponses been reasonable considering the scale and context of the proposed action?"	iteat enamac	T OT	
		No, or small impact may occur	Mode to la imp ma	rge act
1,	Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?			
2.	Will the proposed action result in a change in the use or intensity of use of land?			
3.	Will the proposed action impair the character or quality of the existing community?			
4.	Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?			
5.	Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?			
6.	Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?			
7.	Will the proposed action impact existing: a. public / private water supplies?			
	b. public / private wastewater treatment utilities?			
8.	Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?			
9.	Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?			

	No, or small impact may occur	Moderate to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?		

Part 3 - Determination of significance. The Lead Agency is responsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.  Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
