TOWN/SUPERVISOR/RECAP OF AMBULANCE USE/MILLER HOSE/OLCOTT FIRE CO.

The Supervisor offered a recap for the Newfane Residents on the status of the proposal for Miller Hose Fire Company and Olcott Fire Company to begin billing for ambulance services. This is something allowed by law and is perceived to be a win/win for the Fire Companies as well as the public. The Supervisor invited personnel from the Fire Companies to come and speak about the process they are hoping will be implemented. Michael Miller, Olcott Fire Company, explained that Governor Hochul passed a law in 2022 allowing Fire Companies to bill for ambulance services. While other Fire Companies implemented the billing service they wanted to wait and see how it would all play out. With the rising costs of material, gas, mileage, etc., they are looking at a soft billing option. Essentially, if you are a Town of Newfane Resident the Insurance Company will be billed. They will not charge a co-pay and if the resident does not have insurance, they will pay nothing. In the past, the hospitals would help by restocking the medical supplies for the ambulance for the patient that was brought in, that is no longer happening. Shannon Coleman, Olcott Fire Company, also reiterated that supplies were depleting prior to covid, however, when covid hit they were getting no help from the hospitals. The cost of medical supplies greatly increased and became difficult to get. The Supervisor indicated that if we do not have the aid of our volunteers, causing a private ambulance company to respond, there will be no forgiveness on the billing. It is becoming clear that this would be the way to keep our volunteers and assist our residents. All funds received for ambulance services by the local Fire Companies goes right back into the EMS Service.

REPORTS OF COMMITTEES AND DEPARTMENT HEADS

The following department heads were in attendance and gave a report on their department. Water Superintendent, Mike Mills, indicates that there is a lot going on with the water line sizing and what they are made of. We have about 4,000 services in Town, and with the work of Wendel Engineering, we have it narrowed down to about 2,000. The water department is going door to door, leaving letters at residences, that they need to schedule appointments for the guys to get into the homes to check for lead. Mike Mills indicated in his 23 years here he has only seen 1. He understands why the State is doing this, but it is a lot of additional work on the staff and needs to be

done by October of 2024. In addition to that we have more water taps and are trying to finish the East Side of Route 18 and working on Lake Road plans.

The Chief Operator of the WWTP, Nick Irr, advised that there is compost available to the Town Residents at no charge. The workers are back at the plant and are continuing work on the upgrades. He is working on straightening out an issue with disinfecting as our chlorine limits have been lowered.

Gina Guido-Redden, Tourism Committee, advised they are getting ready for the eclipse. Almost all of the businesses that are closed on Mondays will be open, the shops at Village Fair will be open, Gina thanked Mike Mills for getting the bathrooms in Olcott open for them. The companies that do rental tracking show our projections for 2024 have increased greatly and we have new businesses popping up in Olcott and Newfane which we are really excited about.

David Schmidt, Building Inspector/Code Enforcement Officer, advised now that the weather is getting warmer it's getting busier. The Short Term Rentals are coming along, the tiny homes are starting to come in and he is down to one more certification and he will no longer need assistance in signing off on any paperwork.

PUBLIC COMMENTS

Stephen Goodman, 3098 Lockport Olcott Road, Newfane, NY, thanked the Supervisor and Town Board for a wonderful Bicentennial kickoff dinner. This was the start of many events scheduled throughout the year and a wonderful time was had by all. He expressed his concern for traffic safety along Route 18 at Krull Park. He realizes that it is not a Town issue, rather a state and county issue, however, he feels that it is a safety issue for pedestrians trying to cross Route 18 from one side of the part to the other. He also stated that he is hoping the "Rails To Trails" project is still moving forward. The Supervisor gave an overview of the status. Stephen also commented that a

Kayak Launch at the Marina would be most helpful for individuals who are not in a physical condition to launch without assistance.

Max Russell, Hess Road, Appleton, suggested that perhaps a good first step to pedestrian safety on Route 18 at Krull might be a pedestrian crosswalk. This would certainly help, especially during large events where traffic is at a premium with a large number of pedestrians crossing back and forth from the north and south and visa versa.
